# About

**Delivering cutting-edge design and manufacturing solutions for cooking spaces and refrigeration needs of all sizes.**

Ice Drops is a new age design, consulting and manufacturing company specialized in providing turnkey solutions for commercial kitchen and refrigeration needs. We are a team of industrial designers and engineers with over a decade of experience in manufacturing high quality and cost effective kitchen equipments and refrigerators for hotels, industrial canteens, fast food outlets, food courts, bakeries, hospital canteens, etc.

We ensure that all equipments are manufactured from carefully sourced steel and other materials that are of high grade and that it meets the global quality standard. Our dedicated client assistant manager will assist you in every step right from planning, designing, production, installation and even through after sales support.
